

"Thank you to all those who have registered in time for the early bird discount!

We have also had some good and welcomed feedback from some runners who knew they wouldn't be able to meet the deadline.

We thought about it and realized that our date for the early bird is unique in that it is just before the last long weekend of the summer, and so many of us are busy shopping for school supplies, enjoying a last moment at the cottage with no access to the internet (so you aren't even reading this), and simply so relaxed that you plum forgot - or maybe you are like us and not so relaxed and still forgot.

For those reasons... and in keeping with our mission of acting upon runner feedback and needs no matter what.... we have extended by a few days the early bird registration.

It is now (and no changing, no matter how hard you plead, beg or bribe) September the 9th at 12:00 midnight! That leaves one month to the race, so it seems a little more logical too.

We hope this helps.

And try to register now because demand for shirts that are the right size is 100% (everyone loves to have one). We want to make sure we can meet demand 100% of the time. So knowing you are coming for sure helps, after a certain point, we can never say we will have your size for certain. We apologize for that; it is simply that suppliers can't get the stock to us in time."
